

# STONY PLAIN SUN.

VOLUME TWELVE.

STONY PLAIN.

ALBERTA, THURSDAY, NOV. 12, 1931

Whole Number 580

## Hints to Hunters.

In a bulletin recently issued a timely warning is given to hunters who travel thru the woods by motor car. The bulletin points out that rifles must be unloaded while being taken in the car in order to avoid serious accidents. It continues "Firearms should never remain loaded while they are in a car. Firearms may move in such a manner that the trigger gets caught upon some projection, and the weapon go off with dire results. Care should be taken to never leave a loaded firearm in your car while absent, even for a very short period. Recently a 7-year old boy found a loaded revolver in a car, and, while examining it, the weapon went off, killing the child instantly.

## Vegetables Now a Drug on the Market.

Vegetable growers and the farmers who have been "diversifying" in vegetables now find they are without a profitable market. The provincial Dept. of Agriculture had been appealed to, to help find a market for the produce. Present indications show that there is practically no part of Canada where vegetables are wanted in marketable quantities. Carloads of vegetables contributed by groups in various parts of Alberta are being sent to areas where the crops were not good. But there is no known place where there is any money worth while being paid for vegetables.

## Stiles—Miller.

On Tues. Nov. 3d a very pretty wedding took place at Blueberry Lutheran Church (Missouri Synod), when Miss Elizabeth Miller, daughter of Mrs C S Ingle, became the bride of Mr John C Stiles, son of Mr and Mrs C T Stiles of Edmonton. Miss Myrtle Stiles, a sister of the groom, was the bridesmaid, with Mr Philip Miller, brother of the bride, acting as groomsman. Rev H Kuring, the pastor, performed the ceremony. At the conclusion of the service at the church, the bridal party, with their friends, motored to the home of the bride's parent, where dinner was served to the host of guests. Followed the dinner dancing was indulged in by all present.

## Bonus Not Affected by Price

In some quarters the impression seems to prevail that if the price of wheat goes up to a certain figure the 5 cent bonus is not to be paid by the Government to farmers. The Act makes no such limitation. The Act gives the Government power to pay the 5c on "every bushel of wheat grown in the provinces of Alberta, Saskatchewan and Manitoba in the year 1931 and delivered to any licensed elevator in the western inspection division, commission merchant, truck buyer or grain dealer, as defined by the Canada Grain Act."

The money for the purpose has been appropriated on the basis of the total estimated yield. The legislation expires July 31 next, the end of the crop year. There is no reason apparent now why the payment should be interfered with before that date by an increase in the market prices.

## Golden Spike

Thanksgiving and Harvest Festival services were held on Sunday last at St John Lutheran church (Manitoba synod). Pastor P Hanneman preached an appropriate sermon to a congregation which filled the edifice.

Mr Rosebaum is still confined to his home as a consequence of the injuries to his head he received when his truck was ditched last week opposite the Adolph Knabel farm. The accident is said to have been due to a piece of firewood carelessly dropped on the road by a thresher outfit on the move.

Harvest Festival services were held Sunday, Nov. 1st at the Zion church (Missouri Synod). The church was appropriately decorated and the Rev H Frye delivered a special address for the occasion.

Rev H Frye left on Saturday last for his old home town Milwaukee, and is expected back in a short time.

## The Hudson Bay Route

The recent successful voyage of the steamer "Farnworth" from Churchill to London, England, loaded with the first cargo of wheat from Western Canada's own seaport, and which voyage was made in the short space of sixteen days, marks an epoch in Canada's maritime history.

It is true that vessels have passed in and out of Hudson Bay every year for more than a century; it is even true that two rival navies entered the Bay, fought a battle there, and sailed out again. It is also true that the success attending the voyage of the "Farnworth," and its sister ship, the "Warkworth," was an outcome fully expected by Western people. The importance of this venture lies in the fact that it provided the final demonstration to Eastern Canada and the world that the West's belief in the feasibility of the Bay route, and its demands, extending for fifty years back, for the construction of the railway to the Bay were fully justified.

It has been proven that the Bay route can be made a commercial success; that the 1,000 mile shorter route from the heart of the grain growing prairies to the centre of the Empire is a practical route. But the fast, safe trips of the "Farnworth" and "Warkworth," through what had for years been regarded as the "frozen North," are not in themselves sufficient guarantee that the new route will become the important factor it should be in the economic history of Western Canada.

The Hudson Bay route is 1,000 miles shorter than any other route; it is feasible; it is practical; it can be made a success. But—in order to be a complete success and to provide an adequate return to the people of Canada for the \$50,000,000, more or less, expended on the railway, the port terminals, and for navigation aids through the straits, other things are essential. Unfortunately, some of these matters are tangled up in the controversies of rival policies of political parties. With these rivalries this column has no concern, but, speaking for the West, it must be said without any qualification that they cannot, must not be allowed to hamper the success of the Bay route.

Among the things now essential to the success of that route are:

(1) The lowest possible rates of freight on both outgoing and incoming shipments over the Hudson Bay railway, and this means the application in all its detail of the Crown's Post Pass schedules to the Hudson Bay railway.

(2) The lowest possible rates of insurance on both vessels and cargoes utilizing the Bay route, and, in this connection, absorption by the Federal Government of any excess in such rates charged over and above those obtaining on other routes until experience demonstrates what the proper rates should be.

(3) The removal of any existing obstacles to the freest possible passage and entry of merchandise and products of all kinds from the more easterly sections of Canada and the markets of Europe into Western Canada by means of the Bay route and the port of Churchill, such removal of existing obstacles to be accompanied by every reasonable encouragement of such traffic. This is essential because no railway and no ocean-going vessel can quote low rates if it can depend on only a one-way traffic.

(4) Finally, it is important that certain branch lines of railway be built in the West which will have the effect of connecting up existing lines in the shortest and most direct way possible with the Hudson Bay railway. This can be done in the majority of cases with comparatively short cut-offs.

Some people advocate making Churchill not only a national port, but a free port. That may or may not be feasible. Such a decision would have an effect on the whole fiscal and economic systems of the Dominion, although unquestionably it would give a great boost to the Bay route and make its success assured.

The point of this article, however, is just this: The Hudson Bay route can, we believe, be made to realize the dreams of western people; it can be made a financial success as well as a great economic and commercial enterprise. The opportunity and the responsibility now rests with the people of the West, irrespective of class or party, to work together in unison to achieve that result. Freight rates must be the lowest possible; insurance rates likewise; necessary railway branch cut-offs must be built; obstacles, if any, to movement of traffic removed; full encouragement for use of the route provided. All political parties have had a hand in the building of the railway and the opening of the route; all have a common interest in its success. So, regardless of party, all Westerners should work together to make that success an assured fact.

### Mecca For Golfers

Winter sports on Vancouver Island include golf, riding, tennis, fishing and yachting. Golf has been played on Victoria courses every day in the year, a test that is possibly unique in the North American continent.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

Mistress—"I don't understand why the Pains don't come to dinner?"  
The Maid—"Oh, I had a toothache and called them up asking if they'd just as soon come next week."

### Her Heart Was So Bad Couldn't Do Housework

Mrs. R. D. Midland, Ont., writes—"I had been troubled with heart trouble for many years."

"My heart would beat so fast I could hardly breathe, and I had headaches, and dizzy and fainting spells."

"I couldn't get my housework done I was so weak. I took three boxes of Milburn's Heart and Nerve Pills and felt much better, and now I would not be without them in the house."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

### Russia and Germany

Soviets Have Good Reason For Not Stirring Up Revolution

For once the Soviet Government of Russia has been reluctant to play with fire in a powder house. On every earlier occasion when Russia's neighbor, Germany, passed through a difficult financial situation, Russian agents were busy in Hamburg, Dresden, Berlin, and other cities, attempting to stir up revolution. In the present case Russia has apparently kept hands off, and one of the dispatches from Moscow suggests the reason.

Russia's chief interest today is the five-year plan. If this plan is to succeed, Russia must build up an export trade. One of the best markets for Russian exports is Germany. Revolution in Germany might endanger the five-year plan by depriving Russia of an indispensable outlet for the raw materials which she must sell abroad, in order to build up credit with which to purchase machinery and tools.

If the Soviet's policy toward Germany is any guide, the world has less to fear from Russia, seeking prosperous markets for her wares, than from Russia, starving and empty-handed.

### NEIGHBORS TALK

"I am employed in a theatre and it is a problem to make ends meet, as I help support my mother and sisters. I like to dress well but haven't very much to spend on clothes. To give the appearance of being in the vanguard I change the colour of a dress or stockings as soon as the things become old. I have bought some Diamond Dyes for the work—using them as dyes for dresses and as tints for stockings. I have already gotten such perfect results that our neighbors talk about the great number of new things I have."

"I learned about Diamond Dyes from our wardrobe mistress. She says she has tried all the dyes on the market but none do such splendid work and are so easy to use as Diamond Dyes. I understand they are the world's most popular dyes—and they deserve to be."

L. P. Montreal.

### Auditorium For Winnipeg

Federal Government Will Share In Cost Of Construction

Approval by the special sub-committee of cabinet on unemployment relief of \$1,250,000 additional expenditure for the Province of Manitoba, including the Federal Government's share in the cost of construction of a large auditorium in the City of Winnipeg, was announced by Hon. G. D. Robertson, Minister of Labor, and chairman of the sub-committee.

Federal Government commitments for the Province of Manitoba are now upward of \$2,250,000, as compared with \$900,000, which was the Federal allotment for Manitoba last year in addition to the necessary direct relief on an equal three-way basis between the cities, province, and Dominion.

**Asthma Victims.** The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

### Life Insurance in Canada

Per Capita Record Surpassed Only By United States

A statement issued by the Life Insurance Sales Research Bureau shows that in the first nine months of the present year a total of \$367,223,000 of new paid-for ordinary life insurance was sold in Canada and Newfoundland.

This hardly indicates that Canada is broke.

What it does indicate is that if Mr. Death should be required to float an interest-free loan he ought to have no difficulty in raising an amount up to \$200,000,000.

Incidentally, speaking of life insurance, the total of insurance in force in Canada at the present time is \$6,500,000,000, or \$500 for every man, woman and child in the Dominion. It is a per capita record surpassed by only one country in the world, the United States—Ottawa Journal.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and prout flesh.

W. N. U. 1935

### British Postal Notes

Post Office Department Says British and Irish Free State Postal Orders No Longer To Be Cashed

Due to the depreciated British pound, orders have been issued by the post office department that British and Irish Free State postal notes are no longer to be cashed. The order does not apply to post office money orders. The explanation given at Ottawa is that postal notes are settled with London on a different basis to money orders, and involve the risk of exchange fluctuations. In any circumstances, the Canadian post office authorities have been inclining to the view that circulation of British and Irish Free State postal notes should cease in Canada and the present chaotic exchange situation appears to provide a suitable occasion for bringing the change of policy into effect.

These governments, however, on advice from Ottawa, have now ceased to issue postal notes for Canada, and will issue only money orders hereafter. The money order, it is stated here, does not involve any exchange risk.

The British exchange situation also has had repercussions on the circulation in Canada of British bank notes. The pound and ten shilling notes, it is learned, are no longer being accepted by many of the Canadian banks.

### Upset Telegraph Service

East African Natives Used Wires For Personal Adornment

Telegraph wire, in varying lengths, attached here and there to otherwise scanty clothing, means chic to the natives of Tanganyika and Kenya, South Africa, and as a result the capital was without wire service to the coast for more than 24 hours.

The demand for wire for sartorial purposes exceeded the available non-commercial supply, so the natives cut telephone lines about 24 miles from Mombasa and took what they wanted. Cable messengers had to be sent to Mombasa, and thence by train, until the damage was repaired. The delay was 16 hours.

**Persian Balm** is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestige of stickiness. Swiftly absorbed by the tissues and soothes the skin. Persian Balm is the peerless toilet requisite. Every woman will appreciate the subtly distinctive charm achieved by the use of this magical lotion.

A bird of paradise ornaments the new special stamps issued by New Guinea to commemorate 10 years of British occupation.

### SCOTT'S EMULSION

of Norwegian Cod Liver Oil

Rich in Vitamins A and D

### Big Blueberry Crop

Shipment Of Blueberries From Kenora This Year Totalled 255,000 Pounds

One Kenora industry showed a remarkable increase this year, as compared with 1930. Blueberries shipped from Kenora this year showed an approximate increase of eighty per cent. over last year's shipments.

The 1930 blueberry crop was 145,000 pounds, or some 3,700 bushels, while this year the shipments totalled 255,000 pounds, or some 15,300 bushels. While the prices this year were lower than last year, yet the increase was even more marked, in the fact that there was always a market this season for the berries, a fact that is not always experienced in other years.

### No Longer

### Bilious—Thanks

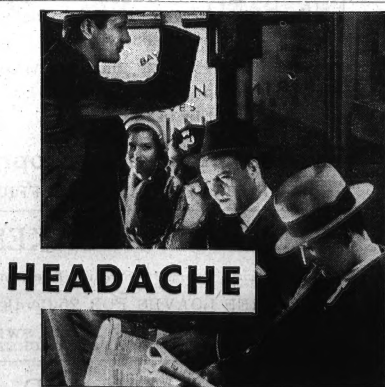

### Vegetable Pills

"I suffered with Biliousness for days at a time. Every medicine I tried failed to bring relief... the first dose of your wonderful Carter's Little Liver Pills gave me great relief."—Mrs. C. Leigh. Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL VEGEABLE and have a very definite, valuable tonic action upon the system. They cure Constipation, Indigestion, Acidity, Headaches, Poor Complexion. All druggists. 25c & 75c per pkg.

### All Dressed Up

Mahatma Gandhi and other delegates to the second round-table conference were invited by the Lord Chamberlain to attend a party at Buckingham Palace. Commenting on his mode of dress, Gandhi said, "I will wear my habitual dress of loin-cloth, shawl and sandals."

The sun is estimated to have 50,000,000 tons of platinum in the form of a gas heated to 11,000 degrees Fahrenheit.

### HEADACHE

A hard day at the office, and a headache homebound. And all for the want of two little tablets of Aspirin! Don't be helpless when you suddenly get a headache. Carry Aspirin with you. The pocket tin doesn't take up any room, but what a comfort when it does!

Fatigue will frequently bring on a headache. It lowers the vitality and invites a cold. Take Aspirin and throw it off. Don't wait until you are miserable. There is nothing in Aspirin to hurt the heart or upset the stomach or harm the system in any way. Your doctor will tell you that. But, get Aspirin—now!

Follow the proven directions to be found inside each package. They cover colds, sore throat, headache, toothache, neuritis, neuralgia, sciatica, lumbago or rheumatism, muscular pains, and other pains and aches for which these tablets are a positive antidote. Keep your pocket tin filled from the bottle of 100 tablets. Every drug store has Aspirin in bottles, as well as the familiar little box.

Aspirin is made in Canada.

ASPIRIN  
TRADE-MARK REG. Made in Canada

# Declares More Armed Men In World To-Day Than In 1914, Before Outbreak Of Great War

Arresting information on world armaments was given by Hon. Hugh Guthrie, Minister of Justice and head of the Canadian delegation to the 12th assembly of the League of Nations. Twenty per cent. of the aggregate amount of revenues of nations in the world today goes on armaments, Mr. Guthrie declared to a combined meeting of the League of Nations Society and the Women's Canadian Club at Ottawa. After all the efforts of the past 12 years there were more armed men in the world today than there were in 1914 before the war. Expenditures were greater, if, said Mr. Guthrie, danger of war because of large armaments existed in 1914, what should be said of conditions today?

This condition was the reason for the coming disarmament conference to be held in Geneva next February, continued the Minister. Right thinking people felt that there was danger of war and that steps should be taken to remove this danger. If a start in the direction could be made next February, much would have been accomplished. "But," said Mr. Guthrie, "it believes that security must precede disarmament in Europe."

The Minister of Justice spoke on the subject of "present problems of the League of Nations." Having returned from Geneva only a short time ago, he was familiar with proceedings at the 12th assembly, and he outlined for his listeners what had been accomplished by the representatives of the 52 nations present. Disarmament, he said, had overshadowed all other subjects discussed. A draft agreement had been prepared for submission to the disarmament conference in February, and he considered it a model document.

## Weather Records Changed

White River, Ontario, Had Unusually Mild October

White River, Ontario, which often wins page one prominence because of its winter habit of being the coldest spot in Canada, blossomed forth this year with weather records of a totally different kind.

An average high temperature of about 65 degrees was recorded for October of this year compared with 40 a year ago, while the lowest mark to end of October was well above 40 with 10 degrees shown as the low at that time.

Plant life flourished under the mild weather, with tame strawberries being plucked during the month. Thimble blossoms found in many places and dandelions numerous. The fourth crop of clover was being grown in farm fields.

Hunters reported the woods full of insects, black flies and mosquitoes being nearly as numerous as in mid-summer.

## Woman Reptile Expert Dead

Miss Joan B. Proctor, Curator of reptiles at the London zoo and one of England's most distinguished zoologists, has died. Miss Proctor, who was 34, would handle the most dangerous reptiles with a fearlessness which astonished old-time menagerie people. Surgeons were amazed at the ease in which she would skillfully operate on the head of a cobra or a rattlesnake without displaying a sign of fear.

Passenger: "Is this plane absolutely safe?" Pilot: "Yes, Madam; it is the safest on earth."

"That is my grandfather—he lived in the time of King Henry the Seventh or Edward the Seventh—I have no head for dates."—Montague Charterlot.

W. N. U. 1915

## International Peace Garden

Turtle Mountain Site Has Been Selected By Canadians

The international peace gardens will be located in the Turtle Mountain area in Manitoba. The final selection of this area has been made by the international committee and is now approved by all American and Canadian bodies having the question of a site under consideration.

The Turtle Mountain site is on the International Boundary, partly in Manitoba and partly in North Dakota. In September the National Association of Gardeners at their convention at Ashbury Park, N.J., approved the site, but final decision rested with the International Peace Garden Commission and the executives of the American and the National Association of Gardeners.

Two sections of land are to be donated by the Manitoba Government and a similar area by the state of North Dakota. The plan calls for planting the garden with flowering plants, trees and shrubbery representative of both nations.

It is proposed to raise a fund of \$5,000,000 to maintain the garden in perpetuity as a token of the unbroken peace between Canada and the United States. While means of raising the money have not been settled the international committee is considering a collection of small donations from school children in all parts of Canada and the United States.

## Automobiles Give Big Revenue

Registration and Gasoline Tax Help To Sell

Revenue from motor vehicles, including registration and gasoline tax, totalled \$41,078,405 in 1930, an increase of \$1,746,103 or 4.3 per cent. over the previous year, according to a preliminary report on highways and motor vehicles issued by the Canadian Government Bureau of Statistics.

There was a decrease during the year under review of \$2,165,154, or 9.7 per cent. in registration fees, due largely to the decrease of the average fee in the province of Ontario, at this was offset by an increase of \$5,910,257 or 20.9 per cent. in the receipts from gasoline tax over that of 1929, owing to the larger quantity of gasoline consumed.

## Railway Board Ruling

A Surcharge Is Set On Express

A surcharge amounting to 60 per cent. of the rate of exchange between Canadian and United States currency has been imposed upon the ordinary rates, by the Board of Railway Commissioners. The order becomes effective at once. This brings the express rates into line with the freight rates on traffic to the United States, a surcharge having been placed on these several weeks ago.

Refusal of the United States express companies to accept payment in anything but United States funds was the reason for the imposition of the surcharge.

# Secrets Of Polar Regions May Yield To Investigations By Scientists Next Year

## A Feasible Route

Churchill Route Is Considered Favorably By Sea Captain

The shipment of grain and other cargoes through the Hudson Strait from Canada's new northern harbor, Churchill, to European ports, is very feasible, according to Captain W. J. Belmont, commander of the Canadian Government ice-breaker, "N. B. McLean," which returned to Quebec after spending three and a half months patrolling Hudson Strait.

Captain Belmont said that the two grain boats, the "Fairweather" with 7,410 tons of wheat and the "Warlock" with 7,172 tons, were both escorted through the strait from Cape Chidley to Coats Island at the eastern extremity of the strait, on their trip to the Old Country. No trouble was experienced and the owners of the two vessels had already signified their willingness to carry further cargoes from Churchill.

Conditions in the Hudson Strait this season have been the best in many years, the "McLean" commander stated, very little field ice being encountered, though quite a few bergs were sighted. The first snowfall came on September 16.

## Eliminates Monoxide Fumes

Device Invented By Toronto Man Is Protection To Motorists

Invention of a device which eliminates the deadly carbon monoxide fumes from automobile exhaust is the claim made by W. Gordon Marsh of Toronto. Substantiation of the claim is contained in a report by A. E. Smith, assistant professor of chemistry at the University of Toronto.

Mr. Smith made an analysis of a sample taken from a car fitted with the device and his signed report shows carbon monoxide had been almost completely eliminated.

## Bright Student

Saskatchewan Boy Makes Remarkable Progress With Studies

Indianapolis, U.S.A., may have a boy wonder in Douglas S. McDougall who completed 12 years of public and high schooling in 9 1/2 years, but a Saskatchewan lad, Albert Burr, of Manor, can go him on better.

Young Burr has produced an affidavit to show that he made the same progress as McDougall in eight years, five months and 20 days. The youthful six footer of Manor now wants to go to college and is trying to find the means to do it.

In Ireland, women over twenty-five years of age vote for the Lower House, and those over thirty-five for the Upper House of Parliament.

## SHARPENING TOOLS FOR WAR

Japanese soldiers stationed in Korea are shown busily sharpening their swords and bayonets before they leave their base for the zone of war in and about Mukden, Manchuria. Woe betide the luckless Chinese who encounter these fierce-looking warriors and feel the touch of that biting steel!

## As To Names

Found That Mary Is the Favorite Among Women's Names In England

Careful statistics have been collected by a man in England as to names, from which it is realized that John is the favorite Christian name in that country, followed by Thomas, William, Richard and Robert, in that order. Mary is the favorite among women's names, and during the past hundred years sixty-eight girl babies out of every thousand have been christened Mary. Eliza, Sarah, Anne, Jane and Ellen come next among girls' names, or did so up to the date of the Great War.

## The Happy Event

"Of course, I recognize him—and yet they say I am suffering from loss of memory."—Guerin Meschino, Milan.

## WORLD HAPPENINGS BRIEFLY TOLD

Argentina has decided to adhere to the one year naval holiday.

Canada is preparing a consignment of relief material for hurricane stricken Honduras.

Premier Brownlee, replying to a report from Ottawa, says no unauthorised work has been done in Alberta under the relief scheme.

The Federal Reserve Bank of New York, on October 31, reported receipt of a consignment of gold from Canada amounting to \$1,000,000.

A petrifed section of an Ichthyosaurus from Hudson's Hope has been placed in the hands of the provincial museum of British Columbia.

Two raccoons and two black bear cubs will be sent to Australia as a gesture of courtesy for the two kangaroos sent to Toronto.

Advent of daylight saving time next year to Vancouver suffered a setback when the city council refused to submit a plebiscite on it at the December elections.

A large majority of the members of the International Peace Garden Commission favored the Thorne Mountain site for the garden, said J. H. Moore, secretary of the commission.

H. G. Wells, noted British author and historian, visiting Boston, predicted increased efficiency in industry would result in increasing unemployment.

The marked upward trend in Canadian business was noted in the value of retail sales during September, issued in a report by the Dominion Bureau of Statistics.

Only 1,004 Canadians received immigration visas for admission into the United States during September as compared with 6,151 in the corresponding month of 1928.

Orders have been received from China for 50 head of registered Ayrshire cows for the Hong Kong Dairy and Cold Storage Company. The order will be filled from herds in British Columbia.

Paint is something used to improve the looks of buildings and spoil those of the girls.

**PHILLIPS' MILK OF MAGNESIA**  
For Trouble due to Acid  
INDIGESTION  
ACID BRONCHITIS  
HEARTBURN  
ACID STOMACH  
GAS-MAKING

## Sour STOMACH

JUST a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective yet harmless. It has been the standard antacid for 50 years. One spoonful will neutralize at once many times its volume in acid. It's the right way, the quick, pleasant and efficient way to kill all the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouths. (Made in Canada.)

W. N. U. 1915

## The Antidote For Fear

Courage, Confidence and Hope Needed  
By World Today

The curse of humanity has always been fear.

Fear dates back to the beginning of man.

Fear is the mother of hatred, the instigator of murder, the begetter of wars.

Fear is the enemy of sanity, the spoiler of judgment, the defiler of the soul.

Fear turns day into night and makes men walk in darkness.

Fear is the forerunner of distress, the foe to prosperity, the preserver of poverty.

Fear is the failure of the spirit, the triumph of the primitive over the civilized, the victory of death over life.

As individuals and as a nation we should cast fear from us.

Courage, confidence, hope—these are the antidotes—and the world has great need of them today.

It is the thing that halts progress and creates difficulties, makes people hesitate where courage would see them through.

Tender-handed stroke a nettle. And it stings you for your pains: Grasp it like a man of mettle—And as soft as silk remains.

—London Daily Express.

## TOO FAT AT 22

Lost 19 lbs.—And Backache

"I am 22 years of age, and I weighed 163 lbs. I had pains in the back and head, I didn't care about anything. When my friend told me to try Kruschen Salts, I would not at first—I was sick of taking stuff. But since I tried Kruschen Salts, six months ago, I have lost 19 lbs., and feel a different woman, so I am very thankful to Mrs. ... who recommended Kruschen Salts."—Mrs. P.

The condition which caused this woman to put on weight was also the cause of her backache and headaches. The whole trouble was due to the internal organs failing to expel from the body, regularly and completely, the waste products of digestion.

The six salts of Kruschen assist the internal organs to perform their functions properly—to throw off each day the waste and poisons that encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely. The backache and headaches disappear. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life.

## THE RHYMING OPTIMIST

By Aline Michaelis

### THE FLAME

As a man may kindle a flame that glows

On a hearth in a cold, bare room

Fills its dancing light, all color of rose,

He has lighted a spark in many lives

With the touch of his spirit's fire,

He has kindled the dream that through all survives,

He has quickened the high desire.

As a blaze with its glamour of ruddy light

Transfigures a room once bleak,

So the flame of his courage, clear and bright,

Brings the power the timorous seek.

He has brought into lives that were drear and cold,

Into doubting hearts of youth,

A gift which has solace for young and old,

The flicker of living truth!

### The Lovely Waskeusi

New Waltz and Song Enjoying a Vogue in the West

Excelling the beauties of Waskeusi Lake, the national playground in Northern Saskatchewan, Mr. J. S. Brundige of Regina, has published a song entitled "The Lovely Waskeusi."

A very delightful musical setting has been arranged by Margaret Lindsay, also of Regina, and the song has been dedicated "To those who have loafed and fished in the Canadian Northland." Words of the song are as follows:

I've wandered over eastern hills, I've trod the western plain,  
And revelled in the beauty of the waving golden grain.

But nature holds a nobler gem the lovely Waskeusi.

O'er hill and dale and winding trail I'm coming back to you.

Thy face reflects the setting sun in many shaded sheen.

The woodland marks thy limits with a frame of softest green.

Thy waters croon a lullaby, soft as a Mother's song.

That soothes to rest the weary mind, while childhood memories throng.

The flowers deck thy verdant banks, the aspens whisper low,

And shed a benediction in the silvery moonlight glow.

The northland calls her children home to the lovely Waskeusi.

O'er hill and dale and winding trail I'm coming back to you.

### An Ancient Cemetery

Discovery of a cemetery more than 4,000 years old and containing probably the earliest archaeological treasures ever found in Persia, was announced by Horace H. P. Jayne, director of the University of Pennsylvania Museum. The find was made at Tepe Hissar, near Damghan.

## SUNDAY SCHOOL LESSON

NOVEMBER 15

PAUL IN JERUSALEM

Golden Text: "Thou shalt be a witness for Him unto all men of what thou hast seen and heard."—Acts 22: 15.

Lesson: Acts 21:17 to 23:30.  
Devotional Reading: 2 Corinthians 4:7-15.

### Explanations and Comments

Paul's Reception At Jerusalem, verses 17-19.—The leaders of the Church at Jerusalem received Paul cordially. James was in the company that greeted him, but Peter seems not to have been present. Paul came to them with a wonderful story of how the gospel message had been received among the Grecian Jews and Gentiles, and with abundant proof of their regard for the Mother Church in the collection which they had contributed out of their deep poverty. It is evident that Paul had thought this gathering of contributions from his Gentile churches to be "the crowning act," as Professor Ramsay declares, of his work in the four Gentile provinces of Galatia, Asia, Macedonia, and Achaia. Yet there is no mention of any expression of gratitude on the part of the receivers. The omission is pathetic to one who has followed with intense interest Paul's course and aim.

Apparently the apostles and elders of Jerusalem passed at once to what the Christian group as they have done all too often in all the ages since.

A somewhat similar spirit reigned among the representatives of the Church of England in Africa a few years since. Missionaries were eager to tell of their labors and successes, but these High Churchmen said "Brothers, we hear that you have received at your Communion 'Table missionaries who do not belong to our sect.'"

### Make Fresh Start

Homes for the aged men are still maintained, but not so for aged women. They say when a woman begins to grow old these days she bobs her hair, shortens her skirt and starts all over again.

An engineer in Scotland has invented a new lubricant, which gives warning of the danger of overheating bearings by emitting a specific odor.

### Soviets To Build Autos

Construction of a giant Soviet automobile plant at Nizhni Novgorod has been completed, it is announced and the plant is expected to start production next January. Equipped with the most modern foreign machinery, it consists of 52 shops covering more than 60 acres and with an estimated output of 140,000 automobiles a year. A number of the shops have already started operation.

Czechoslovakia has started this year public works which will cost nearly \$130,000,000.

## New Radio Device

Sensitive Drum-Shaped Pick-Up That Has Great Possibilities

Talkies and radio may have a new larynx in a drum-shaped pick-up of gold leaf only one-millionth of an inch thick. Details of its development were made public at Purdue University, Indiana.

This membrane, 50 to 100 atomic diameters in thickness, is stretched taut like a drum head over a steel ring larger in diameter than a silver United States dollar.

Dr. Karl Lark-Horvitz, head of the physics department, said that the big pick-up reproduces the low frequencies, that is, the deep tones, almost without distortion. It can be used both for pickup of sound and for loud speaking.

In Ancient Galilee  
The University of Michigan Institute of Archaeological Research has announced that an expedition directed by Prof. Leroy Waterman, has discovered remains of what probably was an early Christian Church at Sepphoris, ancient capital of Galilee.

## "RED" SECRETS ARE BARED BY POLICE OFFICER

Toronto, Ont.—For seven long years, a shabbily-clad, stockily-built German-Canadian acted as secretary of the Regina, Sask., branch of the Communist Party of Canada. For those seven years he shared the innermost secrets of the "legal" and "illegal" branches of the party, sat at the council seat, attended conventions, talked and corresponded with the leaders.

But this time, he had changed the ragged hand-me-downs for the scarlet and blue of the Royal Canadian Mounted Police. It was the first time in 10 years, his comrades said, that he had worn the proud uniform of Canada's famous force.

His name was Sergeant John Leopold, of the Royal Canadian Mounted Police.

For seven years he had been secretary of the Regina branch of the Communist Party.

He had won the post through hard work.

While a member of the party he was known, not as Sergeant Leopold, but as E. W. Eswelwin.

He had entered the Communist Party in search of evidence to prove that it was an unlawful association, and that membership in the party was tantamount to a seditious conspiracy.

The Communist Party in Canada, he testified, was a section of the Communist International since its formation. It had been represented at all congresses of the international in Russia. From 1921 to 1924 it was known as "The Workers." But, he said, there were two parties. One was the workers, which was intended to be legal. The second was the "illegal" or underground party. The parties were known as "A" and "Z" parties respectively. "Z" was the latter party which, "carried on the illegal work of Communist International."

But in 1924, the "Z" party, at the direction of the executive committee of the Communist International, came into the other, the witness declared. Then the workers became known as the Communist Party in Canada, E.C.C., giving as the reason that while the "Z" party continued the work underground, it would not make that progress among the masses which was required "for the completion of its program."

Every member who joined the party, Leopold continued, took a definite pledge to subordinate himself to the decisions and directions of the Communist International at Moscow, and the Communist Party of Canada was controlled by the Moscow body. This was shown, he claimed, in the constitution of the Canadian party, and also in the constitution of the Comintern (Communist International).

He outlined the work of the nucleus—the "foundation of the party." This nucleus, he said, was composed of two or more members of the party in every mine, shop, store, lumber camp, shipyard, factory or other industrial concern, and operated secretly. The members of the nucleus were known to each other but not to the factory workers in general.

The main purpose of the party, he testified, was "to stir up discontent and strife; to foment and develop grievances, real or imaginary, and where none exist to create them."

The party, as a world-wide party, of which Canada is an integral section, "plans, by force and violence, to overthrow not only our own government but all other governments." Constant information of the progress of revolutionary efforts in other countries, as, for example, the revolution being conducted by the Chinese section of the Communist International, was furnished the Canadian party. "The Chinese revolution is our revolution," the Canadian party maintained, according to Sergeant Leopold.

Even the alleged code of the Communist Party was outlined by the witness. When members of the "underground" party wished to communicate, a certain page of a publication was chosen. Numbers indicated line and letter which was to be indicated. "5-7," for instance, meant the fifth line and seventh letter was to be taken.

W. N. U. 1915

## Response From Eastern Canada Is "Remarkable"

People Doing Everything Possible For Needy On Prairie

Edmonton, Alberta.—Eastern Canadians are making a response to the need of straitened areas in the west that is "nothing less than remarkable and in every way immensely gratifying," states Rev. Dr. M. H. Wilson, superintendent of missions for the United Church in northern Alberta, who has returned from a meeting in Toronto of the home mission board.

Conditions in southern Saskatchewan, parts of northern Manitoba, and certain dried-out sections of southern Alberta have been put before the people of Ontario in particular, with the result that, besides many carloads of vegetables and fruit for points in Saskatchewan, some 50 tons of second-hand clothing have been contributed through United Church congregations and sent west for distribution in the three prairie provinces. This work is continuing.

In Alberta practically all the student missionary fields are closed for the winter. By way of meeting the particular needs of the coming winter, two United Church missionaries-at-large have been sent into northern Saskatchewan to minister to the large number of settlers who have moved into that area from the south, and three men have been similarly assigned to work among relief camps in various parts of the country.

## National War Memorial

Impressive Monument 90 Feet High To Be Erected At Ottawa

Ottawa, Ont.—Canada's national war memorial at Ottawa, which will be one of the most beautiful and impressive of its kind, is expected to be completed early next summer. Rapid progress is being made on the memorial, it is stated in reports from England, by the sculptors, the March Brothers and Sisters.

Ninety feet high, showing a colossal group of figures in bronze, exemplifying heroism in the service of the Canadian people, the memorial will stand in Confederation Park. Its erection will involve the removal of the city post office, the construction of a new railway post terminal, and a new arrangement of uptown vehicular traffic.

## Harvester Company Resumes Operation

Plants Have Been Re-Opened In Canada And United States

Chicago, Ill.—Officials of the International Harvester Company announced that it has resumed active operation in all its Canadian and United States plants. Several hundred men are back at work at wages ranging from 10 to 20 per cent. under the former rates.

Seniority rights, the officers said, will be observed in the re-employment and married men will be given preference. The new schedule in most plants increasing the week to four days will affect approximately 20 plants.

## New Agreements Necessary

Before Ottawa Will Pay Increased Share Of Old Age Pensions

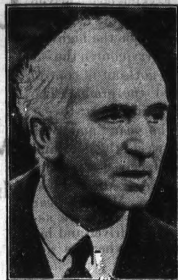

Ottawa, Ont.—Provincial governments have been notified by the Dominion that new agreements will be necessary before the federal treasury will proceed to pay 75 per cent. of the old age pensions instead of 50 per cent. which was the amount fixed under the old act. The new act was to start on July 31 and as it provides for payments each quarter, the first quarter is over and it is expected steps will be taken very soon to conclude the new agreements.

## Tribute To War Dead

Montreal.—The engines of ships at sea will cease their throbs on Remembrance Day in tribute to those who died in the war. Headquarters of Canadian Pacific and Canadian National Steamships announced that instructions had been given to ships for a two-minute silence just before 11 o'clock on the morning of November 11 unless the sea is rough.

Germany's entire postal wireless receiving service will be concentrated in a little town thirty miles west of Berlin.

## BRITISH STATESMAN

Sir John Simon, who was unanimously elected leader of the National Liberal group in the House of Commons. Sir John Simon, a noted jurist, achieved a new standing in the Liberal Party when he had a dramatic breach with Rt. Hon. David Lloyd George, free trade Liberal leader.

## Statistics Indicate Present Year Healthy

Cumulative Death Rate Both In U.S. and Canada 9.1 Per 1,000

Toronto, Ont.—The year 1931 has been an exceptionally good health year, according to life insurance statistics, the cumulative death rate both in Canada and the United States being 9.1 per 1,000. This is approximately one per cent. in excess of that of 1930, when the minimum rate for all time was registered.

Mortality for heart disease is two per cent. higher than in 1930. Tuberculosis is establishing a new minimum mortality record for all time, registering only 77 per 100,000 for the ten months, a decrease of 5.9 per cent. in the period of one year. Diphtheria death rate has declined 34.6 per cent. this year, a new low record. On the other hand, the cumulative rate for diabetes is considerably higher. The rate for cancer has also increased five per cent.

## Thinks Will Unjust

Norwalk, Conn.—Mrs. Marion Oser says she will not join her brother, William L. Edison, in contesting the will of their father, Thomas A. Edison. "I think the will is very, very unjust," Mrs. Oser said, "but I will not fight it. The fight probably would run for years, and I do not think I could stand it."

## Special Fares For Christmas

Montreal.—Special Christmas and New Year fares at the rate of ordinary first class one-way fares and one-quarter for the round trip, with a minimum charge of 50 cents, will be placed in effect on Canadian railroads over the Christmas and New Year holidays, it has been announced by the Canadian Passenger Association.

## THE "OBSERVER" LEAVES PARLEY WITH LORD READING

Prentiss Gilbert (left), the United States Consul at Geneva, and the first American to sit in the Council of the League of Nations, is shown leaving a League session with Lord Reading, Britain's delegate to the League and Foreign Secretary in the National Government. Gilbert was seated with the Council as an "observer" during the Sino-Japanese crisis.

## Work For Train Crews

Enlarged Movement Of Grain Increases Employment On Railways

Calgary, Alberta.—Both Canadian National and Canadian Pacific Railways east and west have had to increase their train and engine crews to cope with the enlarged movement of grain in the past few weeks, it was announced here. The movement was reported to be considerably heavier than during the corresponding period last year.

Calgary office of the Canadian Pacific Railway stated that eight more train and engine crews than were required at this time last year were employed in the last few days to handle the freight service out of Calgary. A corresponding increase was announced by the Canadian National Railways, which stated that the movement was much above this period in 1930. The movement of grain between Calgary and Edmonton was estimated to have doubled in the last week.

## Resigns Judicial Post

Mrs. Emily Murphy Gives Up Position In Edmonton

Edmonton, Alberta.—The first woman to be appointed to such a post in the British Empire, Mrs. Emily Murphy, who has held office here for 15 years, has resigned as women's police magistrate for the City of Edmonton. She also vacates the post of judge of the juvenile court for this city.

While resigning as an active police magistrate for the city, Mrs. Murphy will continue to hold her appointment as a police magistrate and judge of the juvenile court for the province of Alberta.

The retiring magistrate, widely known as "Jancy Canuck" played an active part in the fight to have women recognized as eligible for appointment to the Canadian Senate.

## U.G.C. Has Good Year

Heavier Handling Of Grain And An Operating Profit

Calgary, Alberta.—Reports showing heavier handling of grain, and an operating profit for the fiscal year ended July 31, 1931, were submitted to the annual meeting of the United Grain Growers, Limited, here. Payment of a 5 per cent. dividend, amounting to \$159,056.49, was made and the surplus account was brought to a total of \$803,387.95. Current assets were given as \$3,131,667.16 against current liabilities of \$1,714,487.33.

The 350 delegates heard R. S. Law, Winnipeg president, announce that the volume of business handled in the fiscal year had been considerably greater than in the previous year.

## Drops Manager System

Cleveland, O.—Cleveland, largest city in the world to try the city manager form of government, has turned thumbs down on the plan and gone back to the old federal system with a mayor and council elected by wards.

## LLOYD GEORGE HAS RESIGNED AS LIBERAL LEADER

London, England.—Rt. Hon. David Lloyd George, outstanding member of the Liberal Party for more than 25 years, resigned his chairmanship and announced he would not accept any other party office.

He set forth his decision in a letter to Sir Herbert Samuel, which was made public just before a meeting of one section of the Liberal Parliamentary Party, at which Sir Herbert was elected to succeed the dynamic Welshman.

The Lloyd George letter and the election of Sir Herbert reflected the separation of the historic Liberal Party into three factions, two of which are reckoned among the supporters of the National Government.

These two are the Samuel Liberals and the group led by Sir John Simon, who was elected chairman of the "National Liberals." Mr. Lloyd George and three followers—all that remain loyal to him—are expected to take their seats in the opposition.

The Samuel Liberals were invited to attend the meeting but they didn't—thus emphasizing the split between them and the Samuelites.

The little group faithful to the resigned leader includes his son, Major Gwylm Lloyd George; his daughters, Megan, and Major Coronwy Owen. It is assumed they will continue to call themselves Liberals.

The future is uncertain for the man who, during the war, was the coalition government, was almost sure arbiter of Britain's destinies and now rules over four votes in the House of Commons.

For the moment he seems very much in the shadow. Few political commentators believe he will remain there permanently.

"As you are aware," Mr. Lloyd George wrote to Sir Herbert, "I am completely at variance with the disastrous course into which the party recently has been guided. It may therefore ease matters, and at any rate save embarrassment to my friends, if I write to tell you that I am not a candidate for election to any office in the group."

"For the moment these causes have been overwhelmed by the calamitous folly of October, and any attempt to revive them will be met for some time with impotence and ridicule. That phase will soon pass and all true progressives then can resume the task out of which they were so regretfully manoeuvred."

## Relief For Stricken Areas

103 Car Loads Of Fruit And Vegetables Contributed By Five Provinces

Toronto, Ont.—Five provinces have contributed a total of 103 car loads of fruit and vegetables to meet the needs of people in the drought-stricken area of southern Saskatchewan and part of southern Alberta. The cars have been despatched under the auspices of the Emergency Relief Committee of the United Church of Canada.

The largest number—68 cars—have been sent from Ontario. Central Alberta has contributed 15 carloads, mostly of mixed vegetables to aid destitute people in the southern part of that province. Manitoba has sent five carloads of mixed vegetables, while from British Columbia 13 carloads of fruit have been shipped. Northern Saskatchewan has sent two carloads of grain products to the affected areas.

Each load is being distributed among 300 families, it is estimated.

## Empire Central Bank

Clearing House For All Banks Of Empire Is Urged

London, Eng.—Creation of an Empire central bank to act as a clearing house for all central banks of the Empire is the chief recommendation of the report of the joint committee appointed by the Federation of British Industries and the Empire Economic Union.

The report further suggests summing up of an Empire currency conference which might be able to establish a "pax-Britannica, built up out of the present anarchy of the world's monetary affairs."

## Try It on Your Readyreck'ner!

If you think the job of post office clerk is an easy one, just test your brains on this one:

A young lady stepped into the postoffice and said as she handed the clerk a dollar: "I want twice as many two cent stamps as one cent stamps for this, and give me the remainder in 3 cent stamps." Can you figure it out?

## Church Services.

United Church service every Sunday Evg. at 7.30.

There will be Gospel services every Sunday at 2.30 p.m. at Muir Lake Community Hall.

Next 15, English Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

## Schedule of Mails.

From the East—Every night except Sat.

From West—Mon., Wed. & Friday morning

To the East—Every morning except Sunday.

To West—Sun., Tues. & Friday night.

## WHY SUFFER FROM HEADACHES,

Pain in and around the Eyes? The right glasses fitted to your eyes will surely relieve you and give you comfort.

Glasses furnished Free. Fifteen dollars examination fee. That is far cheaper than paying \$3 to \$10 for an examination and then glasses at \$12 to \$15; but you cannot see the logic of this; you need more than glasses.

## M. M. Mecklenburg,

41 Years' Experience, 28 years in Western Canada, 10170 101st St., Edmonton.

Pleasant tasting—Refreshing—'and gives prompt relief in cases of Sick, Bilious or Nervous Headache, Indigestion, Jaundice, Constipation, Irritability, Sour Stomach, Migraine, Heartburn, Rheumatic or Gouty Conditions.

Wampole's Grape Salts have a highly recommended all for Impure Blood, and all this Impurity, Bile, Phlegm, etc. It is useful in all Fevers, during Rash, Scarlet Fever, Chicken Pox and measles fevers, to cool the blood and cleanse the system. It acts as a gentle Laxative and Stimulant of the Liver.

Get a bottle today. Price 75c. For Sale by J. F. CLARKE, Stony Plain.

## Stony Plain and District

Mrs Frank Lates, of Brandon, is visiting at present with her sister, Mrs A. K. Michael. Mrs Michael had as a week end visitor Mrs Adolf Behrens of Viking.

Mr J H Macdonald, of the Calgary Power Co., gave this town a lookover on Monday afternoon.

Another party of big game hunters consisting of Henry Enders, E and G Eberhardt, and Ph P Miller, left Monday for the West.

Preparations are going forward for the presentation of the play to be given under the auspices of the local W. L., and practices are being held bi weekly. The date of the presentation has not yet been set.

Organisations or other parties wishing to contribute farm produce or other articles are advised to get in touch with the Relief Division of the provincial Department of Agriculture.

BIRTH—At Inga, on Wed., Sept. 30, to the wife of Mr Jac Litzenberger, a son.

The Stony Plain Pharmacy is installing this week two new Victor Radios for demonstration purposes—one is a Radio R 9 with eight tubes; the other is a compact Model Superette with 8 tubes. Hear these, and be convinced the Victor is best.

Donald Dickson, the motor cycle rider who had his legs run over by a truck at Blueberry corner on Sunday, Nov 1st, is making a very slow recovery at the Royal Alex hospital. He is suffering from a double fracture of the pelvis.

There will be a Community dance at Muir Lake Hall tomorrow night.

The grain is being brought in so fast by the local farmers that the Stony elevators are practically full at the present time.

Hockey practice and skating were indulged in on the holiday at Brant's lake, north of town.

## Duffield Doings.

On Sunday evening last, while Mr Walter Best, of this district, was driving home along the highway with his team and democrat from paying a visit with a friend, his rig was struck very forcibly by a motor car. The auto is said to have been driven by Mr William Reedel, an Edmontonian. The injured man was removed to the Misericordia hospital, in Edmonton, where it was found he was suffering from a scalp wound and other injuries.

## Calendar

NOVEMBER—13—Auction Sale, J S Ulmer, half mile west of Holborn Hall. 13—U F W A. Dance at Holborn Hall. 13—Dance at Muir Lake Community Hall. 15—U F A-United Church service at Holborn. 20—Ings. Councillors meet. 28—U F A Local meets.

## Railway Time Table

Going East—Every morning at 6.23. Going West—Every midnight at 24.15.

## Accident on Highway.

Late on Tuesday afternoon, while an Erskine coach driven by Mr MacNee was negotiating the corner on the highway near Blueberry church the car apparently got out of control and jumped the grade. The driver made an effort to get out of the car, and was caught between the door and jam, and received severe injuries. Mr A E Michael was following the MacNee car down the trail, and gave assistance to the driver and his two passengers when the accident happened.

Dr Walton fortunately happened along at this time and attended to the injured. Later, the driver was taken to an Edmonton hospital.

Mr MacNee is in the employ of a firm of Edmonton realtors, and had been returning with his passengers from an inspection of some farm lands.

## Spruce Grove News

Insurance Agent George F Harris, a former resident of the Grove, was here Friday, on a business trip.

Mr Napoleon Gagne last week attended the funeral in Edmonton of Mrs Philomena Guenette, an oldtime resident of the district.

It begins to look now, that the incorporation of the village, which was expected to take place the first of the year, will get an indefinite postponement, as several of its promoters who were warm on the subject last June are at present "not so hot."

Mr Jack Nichols returned on Friday, after a short vacation spent in the City.

## Open Seasons for Game.

Ducks and Geese—Sept 15 to Nov 14th. Hungarian Partridge—Oct 1 to Nov. 15. Sharp-tailed Grouse—Oct. 1-15. Pheasant—No open season. Deer—Nov 1 to Dec 14. Otter, Nov. 1 to May 1. Beaver, No Open Season. Muskrat—Between North Sask. River and Tp. 91, Feb. 15 to April 15. Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

## 2 Meals a Day, Plenty Water, Helps Stomach.

"Since I drink plenty water, eat 2 good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.

Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a HEAL cleaning and see how good you feel! J. F. CLARKE druggist.

## Peck's CAPS

—are made for those men and young men who appreciate the little touch of refinement in head dress.

The most comfortable and most serviceable caps made for golf, motor and all other occasions, as well as street wear.

T. J. Hardwick, Agent Stony Plain.

## THE HOUSE OF DREAMS-COME-TRUE

MARGARET FEDLER  
Author Of  
"The Splendid Folly," "The Hermit  
Of Far Road,"  
Hodder & Stoughton, Ltd., London.

### CHAPTER V.—Continued.

"Thank God!" she heard him mutter. Then, aloud, reassuringly: "I've got my end of it all right. Now, can you catch hold of the strap and raise yourself a little so that I can reach you?"

Jean obeyed. A minute later she felt his arms about her shoulders, underneath her armpits, and then very slowly, but with a sure strength that took from her all sense of fear, he drew her safely up beside him on to the high ground.

For a moment they both rested quietly, recovering their breath. The Englishman seemed glad of the respite, and Jean noticed with concern the rather drawn look of his face. She thought he must be more played out than he cared to acknowledge.

Across the silence of sheer fatigue their eyes met—Jean's filled with a wistful solicitude as unconscious and candid as a child's, the man's curiously brilliant and inscrutable—and in a moment the silence had become something other, different, charged with emotional significance, the revealing silence which falls suddenly between a man and woman.

"This is what comes of stealing a day from Mrs. Grundy," commented the man dryly.

And the tension was broken.

He sprang up, as though anxious to maintain the recovered atmosphere of the commonplace.

"Come! Having shot her bolt and tripped ineffectually to down you in a ditch, I expect the old lady will let us get home safely now. We're through the worst. There are no more drifts between here and the hotel."

It was true. Anything that might have spell danger was past, and it only remained to follow the beaten track up to the hotel, though even so, with the wind and snow driving in their faces, it took them a good half-hour to accomplish the task.

Monsieur and Madame de Varigny,

## When TEETHING makes HIM FUSSY

One of the most important things you can do to make a teething baby comfortable is to see that little bowels do their work of carrying off waste matter promptly and regularly. For this nothing is better than Castoria, a pure vegetable preparation specially made for babies and children. Castoria acts so gently you can give it to young infants to relieve colic. Yet it is always effective for older children, too. Remember, Castoria contains no harsh drugs, no narcotics—it is absolutely harmless. When your baby is fretful with teething or a food upset, give a cleansing dose of Castoria. Be sure you get genuine Castoria with the name;

Castoria

CHILDREN CRY FOR IT

W. N. U. 1915

a distracted "maitre d'hotel," and a little crowd of interested and sympathetic visitors welcomed their arrival.

"Mon dieu, mademoiselle! But we rejoice to see you back!" exclaimed Madame de Varigny. "We ourselves are only newly returned—and that, with difficulty, through this terrible storm—and we arrive to find that none knows where you are!"

"No, I made sure that, mademoiselle had accompanied Madame la Comtesse," asserted Monsieur Vautrin, nervously anxious to exculpate himself from any charge of carelessness.

"We were just going to organize a search-party," added the little Count. "I, myself," stoutly—"should have been in the search."

Wary as she was, Jean could hardly refrain from smiling at the idea of the diminutive Count in the role of gallant preserver. He would have been considerably less well-qualified even than herself to cope with the drifting snow through which the sheer, dogged strength of the Englishman had brought her safely.

Instinctively she turned with the intention of effecting an introduction between the latter and the Varignys, only to find that he had disappeared. He had taken the opportunity presented by the little ferment of excitement which had greeted her safe return to slip away.

She felt oddly disconcerted. And yet, she reflected, it was so like him—so like the conception of him which she had formed, at least—to evade both her thanks and the enthusiasm with which a recital of the afternoon's adventure would have been received.

### CHAPTER VI.

#### The Magic Moment

Jean, surprisingly revived by a hot bath and a hot drink, and comfortably tucked up beside the fire in her room, was recounting the day's adventure to Madame de Varigny.

It was a somewhat expurgated version of the affair that she outlined—thoughtfully calculated to allay the natural apprehensions of a temporary chaperon—in which the unknown Englishman figured innocuously as merely having come to her assistance when, in the course of her afternoon's tramp, she had been overtaken by the blizzard. Of the stolen day, snatched from under Mrs. Grundy's enquiring nose, Jean preserved a discreet silence.

"I don't know who he could be," she pursued. "I've never seen him on the ice before; I should certainly have recognized him if I had. He was a lean, brown man, very English-looking—that sort of cold-tub-every-morning effect, you know. Oh! And he had one perfectly white lock of hair that was distinctly attractive. It looked—descriptively—"as though someone had dabbed a powdered finger on his hair—just in the right place."

Madame de Varigny's eyes narrowed, and a quick ejaculation escaped her. It was something more than a mere exclamation conveying interest; it held a definitely individual note as though it sprang from some sudden access of personal feeling.

Jean, hearing it, looked up in some surprise, and the other, meeting her questioning glance, rushed hastily to speech.

"A lock of white hair? But how chic! It should not"—thoughtfully—"be difficult to discover the identity of anyone with so distinctive a characteristic."

"He is not staying in the hotel, at all events," said Jean. "He told me he was at a friend's chateau."

"And he did not enlighten you as to his name? Give you no hint?"

Madame de Varigny spoke with an assumption of indifference in her liquid voice.

Jean shook her head, smiling a little to herself. It had been part of the charm of that brief companionship that neither of the two comrades knew any of the everyday, commonplace details concerning the other.

"Perhaps you will see him again at the rink tomorrow," suggested

Madame de Varigny, still with that note of restrained eagerness in her tones. "The snow is not deep except where it has drifted; they will clear the ice in the morning."

Jean was silent. She was not altogether sure that she wanted to see him again. As it stood, robbed of all commonplace circumstances of convention, the incident held a certain glamour of whimsical romance which could not but appeal to the daughter of Glyn Peterson. Nicely contented, as, for instance, by the unknown Englishman's prosaically calling at the hotel the next day to enquire whether she had suffered any ill effects, it would lose all the thrill of adventure. It was the suggestion of incompleteness which haunted the entire episode so piquantly.

No, on the whole, Jean rather hoped that she would not meet the Englishman again—at least, not yet. Some day, perhaps, it might be rather nice if chance brought them together once more. There would be a certain element of romantic fitness about it, should that happen.

"I don't think I am likely to see him again," she said quietly, replying to Madame de Varigny's suggestion. "He told me he was going away tomorrow."

If it had been conceivable, Jean would have said that a flash of disappointment crossed the Countess's face. But there seemed no possible reason why the movements of an unknown Englishman should cause her any excitement of feeling whatever, pleasant or otherwise. The only feasible explanation was that odd little streak of inquisitiveness concerning other people's affairs which appeared to be characteristic of her and which she had before evinced concerning the circumstances of Lady Anne Brennan.

Whatever curiosity she may have felt, however, on this occasion Madame de Varigny refrained from giving expression to it. Apparently dismissing the subject of the Englishman's identity from her mind, she switched the conversation into a fresh channel.

"It is unfortunate that you should have met with such misadventure today. You will feel disposed to dance this evening, after so much fatigue," she observed commiseratingly.

But Jean rejected the notion. With the incomparable resiliency of youth, she felt quite equal to dancing all night if needs be.

"Mais tout au contraire!" she exclaimed. "I'm practically recovered—at least, I shall be after another half-hour's lazing by this glorious fire. I wonder what heaven-sent inspiration induced Monsieur Vautrin to install

## When a Laxative Gripes

### BEWARE!

Severe abdominal pains, griping, after taking a laxative is an indication of unnatural strain that may cause serious injury.

No laxative that causes such discomfort is safe, or necessary. Eno's is pleasant, gentle, safe and sure.

A daily dash of Eno's "Fruit Salt" in a glass of water, slight or morbid, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

## ENO'S FRUIT SALT

a real English fire-place in this room? It's delicious."

The Countess rose, shrugging her expressive shoulders.

(To Be Continued.)

### Economic Conference Likely

#### Governments Would No Doubt Accept

#### Invitation For Next Year

The London Times says that when Prime Minister R. B. Bennett of Canada formally renews his invitation to hold the adjourned meeting of the Imperial Economic Conference at Ottawa next year, the National Government will certainly accept it. The suggestion is made, the Times added, that the meeting should not be held too early in the year, in order that all the governments of the Empire might have ample time to make their preparations.

#### An Oil That Is Prized Everywhere.

Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

#### To Control Radio

Australia will follow Britain in dealing with radio. From June 30 next year private broadcasting in Australia will cease, and will be replaced by an organization along the lines of the British Broadcasting Corporation, which under the government has the monopoly of broadcasting in Britain.

### Little Helps For This Week

—And their works do follow them."—Revelations xiv, 13.

Now, rather act the part unnamed, unknown, And let Fame blow her trumpet through the world to swell a fool's renown. With noisy wind to swell a fool's renown, Joined with some truth he stumbled blindly o'er, Or coupled with some single, shining deed, That in the great account of all his days Will stand alone upon the bankrupt sheet.

His plying angel shows the clerk of heaven. The noblest service comes from nameless hands, And the best servant does his work unseen.

—Oliver Wendell Holmes.

Is it only those who are great, or those only who are splendidly good, whose works do follow them? God forbid. Are there not, as He Himself has told us, such little things as the yallow's mite and the cup of cold water given for His sake? There is a greatness in unknown names, there is an immortality of quiet duties attainable by the meanness of mankind.

—Frederic William Farrar.

Charlotte—It must be three years since I saw you last. I hardly knew you, you have aged so.

Clara—Well, I wouldn't have known you, either, except for that hat.

A new, different

# MENU

This delightful tea menu suggested by Madame R. Lacroix, assistant director at the Provincial School of Domestic Science, outstanding Montreal Cooking School, will come in very handy next time you're entertaining. Keep it for reference.

### TEA MENU

Fruit Cocktail  
Hot Cheese Biscuits\*  
Salad Marguerite  
Assorted Tea Cakes  
Pineapple Ice Cream  
Chai & Samba's Tea or Coffee

Madame Lacroix says: "For my part, I always use and recommend Magic Baking Powder because it is absolutely dependable. Its high levelling power is always uniform. You get the same satisfactory results every time you use it."

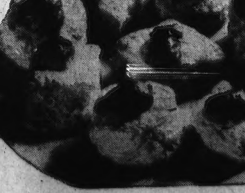

### Try Madame Lacroix's recipe for \*HOT CHEESE BISCUITS

1½ cups flour	¾ cup milk
4 teaspoons Magic	¾ cup salted
Baking Powder	cheese
2 tablespoons butter	1 teaspoon salt

Sift flour, baking powder and salt. With two knives, thoroughly mix flour, butter and cheese. Dilute the mixture with milk to make a soft dough. Roll quickly and lightly to one-half inch thickness and cut with round biscuit cutter. Place on top of each biscuit a cheese cube, one-half inch thick, and bake in oven at 400° F. about 12 or 15 minutes.

More than 200 interesting, tested recipes are contained in the New Free Magic Cook Book. If you bake at home, send for a copy. Write to Standard Brands Limited, Fraser Avenue, Toronto.

## Operating Profit Reported by the U. G. G.

Reports showing heavier handling of grain and an operating profit for the fiscal year ended July 31, 1937, were submitted to the annual meeting of the United Grain Growers in Calgary last week. Payment of a 5 p.c. dividend amounting to \$159,056, was made. The 350 delegates present heard R. S. Law, Winnipeg, president, announce that the volume of business handled in the fiscal year had been considerably greater than in the previous year. President Law was re-elected unanimously. The 1932 meeting will be held at Saskatoon.

## Regina Grain Fair, 1933.

The spirit of the West, "we may be down but never out," is well exemplified by farmers throughout many areas of western Canada in their attitude to The World's Grain Exhibition and Conference at Regina will be held July 24 to Aug 5, 1933. Following the announcement that the exhibition had been postponed for a year, come reports from many sections that farmers are already planning to take advantage of next year's operations in order to make even a better showing at the Fair in 1933.

## Masonic "At Home."

Meridian Lodge No. 129 held its annual "at home" on Friday evening last, at the local hall, with a goodly number present. Dancing for the younger set and cards for the others helped pass a very pleasant evening. The committee having charge of the affair were: Messrs L. M. Larson, A. E. Michael, and Jas. Malloch. Those invited included:

Mr and Mrs J. F. Clarke  
Mr and Mrs F. W. Yeats  
Dr and Mrs R. A. Walton  
Mr and Mrs W. E. H. Lewis  
Mr and Mrs J. W. McCulla  
Mr and Mrs A. E. Michael  
Mr and Mrs A. J. Anderson  
Mr and Mrs L. Kowenacki  
Mr and Mrs Jas. Malloch  
Mr and Mrs J. H. Lory

## The U. F. Convention.

The convention at Magnolia last week was the most successful yet held, with a record attendance from all districts in the constituency. Premier Brownlee deplored the fact that thus far only one million bushels of wheat had been sold thru the Wheat Pool, and told how he had urged the Dominion Government to fix the price of wheat at 70c. Mr R. Gardiner, M. P., declared the present banking system was inadequate. He stated that, while there is ground for optimism as a result of increased wheat prices, he saw no hope for a permanent prosperity till the banking system is changed.

Mrs Warr, president of the U. F. W. A., sketched the work of that organization, and that of the Junior U. F. A. Mr Donald MacLeod, M. L. A., stated that a new spirit was entering into the United Farmer movement; and added that this is the time to make a new start, and to prepare for the new opportunity confronting us.

## Holborn Happenings.

A very pleasing surprise party took place here on the evening of Tuesday, Nov. 3d, at the home of Mr and Mrs A. J. Anderson, the occasion being the anniversary of the natal day of Mrs Anderson. The evening was pleasantly spent in dancing and playing "500," following which a dainty lunch was served. The lady honored was the recipient of a number of souvenirs of the occasion. Among those who motored down from Stony Plain were Mr and Mrs Wm Kelly, Mr and Mrs L. M. Larson, Mr and Mrs Henry Oppertshausen, Mrs Becker, Mrs Donaldson.

Mr J. S. Ulmer, the well known farmer of this district, is holding a clearance sale of everything on his farm tomorrow the 13th. Everything put up will be sold regardless. Mr Ulmer is said to be moving to Stony Plain, where he will make his headquarters for his express trucking business.

The U. F. A. delegates from Holborn, Messrs H. J. Woodley and T. R. Scott, who went to Magnolia last week, to attend the convention, report having got a good reception on their visit there.

Tomorrow, the 13th, is the date of the big U. F. W. dance at the Holborn hall.

## Here and There

Growing of ginseng for the Chinese market has developed into a substantial business at Waterford, Ont., where about 45,000 pounds of this root were produced last year, valued at \$370,000.

Fine, unusually warm, weather has favored threshing operations in the north-west of Canada since October and has raised the grade of wheat substantially, according to the crop report of the Canadian Pacific's Agricultural Department.

Evaporators in the Annapolis Valley are now working full time and are consuming large quantities of low grade apples. Markets for the evaporated product are being found in Montreal and Toronto with an occasional car for the Canadian West.

The canoe continues to be popular. A recent official report shows that in the last five years in Canada building of canoes has increased by over 30 per cent. in the number of establishments making them and by 88 per cent. in the value of the output.

Canary Kornedike Alceira is dead. This was the world-famous Holstein cow which in 1928 created a world record of approximately 1080 pounds of butterfat in 385 days. She was later purchased by the Saskatchewan Government for \$10,000 for breeding purposes.

Due to fall of the Canadian dollar and rise in the French franc, there will be no reduction in the price of wines to Canadians this winter, according to L. B. Cordeau, Chairman of the Quebec Liquor Commission, interviewed aboard Canadian Pacific Empress of Britain on his return recently from a tour of Europe.

Visiting Canada for the purpose of studying all phases of the grocery trade, a party of British grocer apprentices are, making a tour of the leading centers of Eastern Canada which include Montreal, Ottawa, Toronto, Hamilton, London, Guelph, Welland and Niagara, travelling Canadian Pacific lines. They will return to England on S.S. Montclair.

Evangeline Memorial Museum at Grand Pre, N.S., repository of valuable Canadian and other historical relics of Nova Scotia, has been accorded the distinction of inclusion in the directory of the Museum Association, Empire-wide organization, headed by Sir Henry Myers, noted authority who visited Canada this summer.

Captain A. J. Hailey, R.N.R., veteran commander of the Canadian Pacific liner Empress of Canada has been decorated with the Royal Order of St. Michael and St. George by His Majesty King Rajadhipok after conveying the Royal party and suite from Victoria to Hong Kong. Captain Samuel Robinson, of the Empress of Japan was similarly honored when he brought the Royal party to Canada.

Co-operation between Canada's two great railway companies registered an important advance recently when it was officially announced that an agreement had been reached whereby the Canadian National will co-operate with the Canadian Pacific Railway and the Canadian Pacific Steamships in the solicitation of freight, passenger and express traffic for Canadian Pacific ships to and from Canadian Atlantic ports. (791)
